

Dear [applicant],

Thank you so much for your submitting a proposal for the Southern Cape Cod Stormwater BMP project. We were very impressed with the knowledge you had to offer and the proposed site was an excellent candidate.

~~On the basis of the proposal we received, Three other communities submitted strong proposals and we've made a preliminary selection of Barnstable (Hayannis Inner Harbor) and Chatham (Oyster Pond Furlong) and Barnstable, to move forward with a Phase 1 site design and cost estimate from the EPA contractor. On the basis of the results of the Phase 1 design and cost estimate, we anticipate one of these two communities will be selected for BMP construction, based on information in these deliverables.~~

We plan to pull together the interested communities on the Cape in the future to share information and experiences. We welcome any thoughts you have as we move forward. If you have any questions or issues that you would like EPA to address, please let us know. Please call me if you have any questions at (617) 918-1601. We really appreciate your interest and the time the [Town of ____] put into developing this proposal. Thanks again.

Sincerely,

[EPA]
